Batchelor sees the light with Kramp

A longtime Power Farming Canterbury customer Ian Batchelor took an interest in the Kramp lighting equipment and converted the top 4 worklights on his MF 6465 to Kramp LED lights.

The ease of conversion, reduction in eye strain, increase in productivity and value for money were the key reasons for changing. Subsequently not only the remainder of the lights were converted to Kramp LED Work Lights but also the work lights on his New Holland 7520 and Claas MEGA 204 Combine. He can't recommend Kramp LED Work Lights enough.
